ALI GASHASH AL OMARI TRADING EST

COMPANY PROFILE

Chairman's Message

Ali Gashash Al Omari Trading Est., commonly known as AOT, was established in the year 2004 at Dammam KSA to cater to the needs of Oil and Petrochemical industry in GCC. Since then AOT has developed a good rapport in the market and has become one of the most trusted and leading suppliers of bulk pipes, Fittings, Flanges, valves, Gaskets and Fasteners for the Oil, Gas, Petrochemical, Power generation & Water and General Engineering industry.

AOT has its main office and warehouse facilities in Dammam Saudi Arabia which is the main oil hub of GCC. We have opted the warehousing in Dammam, in order to facilitate the same day delivery both in Saudi Arabia and Bahrain.

Most of the materials we supplied are used by SABIC, SAUDI ARAMCO, SWCC, SEC, BAPCO, TATWEER, ALBA, ETC

AOT acts as an agent in KSA for a diverse range of products from reputed manufacturers from all over the world. The company specializes in valves and equipment. It also stocks a wide range of Pipes, Fittings, flanges, Valves to cater to the needs of its clients which include well known Oil & Engineering companies in the Arabian Gulf. We do have some exclusive agency for chain Wheel like Babits USA

AOT is managed by a team of experienced professionals, which coupled with its mission to keep abreast of the latest technological innovations worldwide is adequately geared towards meeting the needs of its clients in the years to come. The company operates in strict accordance with international organization for standardization 9001:2008.

To whom it may concern

Schilzing, 09. July 2013

Letter of Authorization

Erne Fittings utilize their passion and perfectionism to make safe pipe fittings for permanent welds for use in the construction of power stations, refineries, oil and gas plants, and in many other applications. This passion and commitment has made the company the world's leading supplier of butt-weld fittings for the approved market.

Thanks to high technological expertise in molding, heat treatment and weld-end preparation, Erne Fittings produces elbows, tees and reducers from $\frac{1}{2}$ "(12.7 mm) up to 40"(1016 mm) external diameter and wall-thicknesses up to 50 mm made of alloyed, unalloyed, stainless and exotic materials.

Hence we confirm that
